### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 13-14 being directed to none-elected invention have been cancelled.

The following is an examiner's statement of reasons for allowance: The instant invention claims a gypsum board having specific structure and composition.

The closest prior art references that relate to the claimed invention are Be'607 and Jaffee'697. The closest prior art teaches that it is known in the art to make and use gypsum boards in which glass fibers are included. However, the closest prior art references singly or in combination do not teach or fairly suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
